The Sculpture Center Announces *Window to Sculpture* Series Schedule

The Sculpture Center has selected seven artists to exhibit in the 2003-2004 *Window to Sculpture* series. *Window to Sculpture* showcases emerging Ohio sculptors, each with a four-week gallery exhibit in which the artist is encouraged to show new work.

Receptions with the Artist are held on opening nights from 5 pm to 8 pm.

Gallery hours are Monday through Friday, 10 am to 4 pm, and Saturdays from noon to 4 pm. The exhibit, opening reception, and parking are free to the public. The Sculpture Center is handicapped accessible.

Exhibit schedule:

- 1) Aug. 8 through Sept. 5, 2003: **Bridget Lewis** features touchable mementos in porcelain with silk-screens and collage materials. Lewis encourages gallery visitors to handle the objects.

- 2) Oct. 10 through Nov. 7, 2003: **Eddie Fulcher** creates an installation of objects with similarities, including books, glass, furniture and neon.

- 3) Nov. 21 through Dec. 19, 2003: **Justin Coulter** constructs structural creations in bronze and steel that seem to defy gravity.

4) Jan. 9 through Feb. 6, 2004: **Greg Mueller** develops geometric and contemplative forms in forged steel, bronze, iron and wood.

5) Feb. 13 through Mar. 12, 2004: **Nick De Pirro** creates an installation of machine precision steel, bronze, iron and lead grouped with modifying objects.

6) Mar. 19 through Apr. 16, 2004: **Voss Finn** features contraptions made of vintage machine tool patterns and found objects.

7) Jun. 11 through Jul. 9, 2004: **Kim Eggleston Kraus** builds an interactive installation of walls and corridors with common building materials.
